Project Recap

Client: Social Buzz, a social media & content

Founded: 2010, HQ in San Francisco, 250 employees.

Social Buzz is a fast growing technology unicorn that need to adapt quickly to it's global scale.

Engagement Objectives: Big data audit, IPO recommendations, content category analysis

Problem

Over the 100000 post per day

36,500,000 pieces of content per year!

But how to capitalize on it when there is so much?

Analysis to find Social Buzz's top 5 most popular categories of content

Team Members:

- Andrew Fleming:** Chief Technical Architect
- Marcus Rompton:** Senior Principal
- Astha Chourasiya:** Data Analyst

Process

1

Data Collection:

Extracted and cleaned data from Social Buzz's databases.

2

Data Analysis:

Performed exploratory data analysis to understand content trends and user engagement.

3

Content Category Analysis:

Identified the top 5 content categories with the highest aggregate popularity.

4

Big Data Audit:

Evaluated Social Buzz's current big data practices.

5

IPO Preparation

Prepared best practice documents and recommendations for a successful IPO.

Insights

Here are some interesting findings about Social Buzz’s categories.

Top 5 Category Aggregate_Scores

Popularity Percentage Share from top 5 category

Summary

Analysis:

Animal and Science are the two most popular categories of content, showing that people enjoy “real-life” and “factual” content the most.

Insight:

Animal is a common theme with the top 5 categories with “Healthy Eating” ranking the highest.

Next Step:

This ad-hoc analysis is insightful, but it’s time to take this analysis into large scale production for real-time understanding of business.
